The 2015/2016 Boardwalk Improvement Project

This project provides a much needed facelift for the Boardwalk area and greatly enhances beach access, special needs accommodations, and enjoyment of the dune ecosystem. Public benefits include:

- Replacement of the entire existing 750-foot long, 8-foot wide structure with a new 16-foot wide Boardwalk and all new 10-foot wide handicap accessible public beach accessways
- Renovation of the beach stage/viewing area and addition of a roof structure
- Addition of seating areas, swings, benches, covered gazebos, and sail shades
- Enlargement of the landscaped coves along the Boardwalk to provide space for historical and environmental educational kiosks, shaded seating, picnic facilities, music, art and other cultural activities

The Boardwalk Extension is currently underway and is expected to be complete in late June 2016.

The construction of the 2015/2016 Boardwalk Improvement Project is funded in part by grants from New Hanover County, the NC Division of Water Resources and the NC Division of Coastal Management. Your contributions will help bring this project to completion.

How can you be a part of the new Carolina Beach Boardwalk?

Currently, all benches and swings on the boardwalk have been purchased. There are benches on the sidewalk area of the business district available to purchase. Additional benches and swings will be added during the construction of the boardwalk extension. Please follow our Facebook pages and website for updates on available sponsorship items.
